## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The drawings must contain a flow diagram for a method claim as independent claim 9 and dependent claims 10 and 11 are a method claim and the steps of a method claim and thus a flow diagram, must be shown in the drawings. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest individually or in combination the claimed limitations, including a broker having a plurality of publication point data processing nodes followed by a series of data processing nodes to perform specific data processing on a data message for a subscriber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
